Fillers

This treatment uses injectables to add volume or restore symmetry to an area on the body. It is commonly used for breasts and buttocks as an alternative to surgery.

Designed to effectively reduce the appearance and smooth away facial lines and unwanted wrinkles, create fuller lips and shape facial contours such as cheeks and chin and revitalize the skin.

Our experts are known to carefully inject the right amount of filler into your lips to enhance them

“Lift without Surgery” is a facial filler made up of hyaluronic acid, a naturally occurring substance that helps to bind water to cells. Its extensive cross-linking helps to provide an excellent lifting capacity, making it an excellent choice for restoring volume.

Botox

Botox injections are noted primarily for their ability to reduce the appearance of facial wrinkles.

They are also used for treating conditions such as neck spasms (cervical dystonia), excessive sweating (hyperhidrosis), an overactive bladder and a lazy eye. Botox injections may also help prevent chronic migraines.

Micro Needling

Micro-needling is a minimally invasive cosmetic procedure that's used to treat skin concerns by stimulating collagen production. Also known as collagen induction therapy, this treatment creates micro-punctures in the skin using miniature, sterilized needles. It is said to rejuvenate and plump the skin with minimal discomfort and truly little downtime, and it can be adjusted to fit each person's needs.

PRP

A PRP procedure harnesses the power of your own body's growth factors to rejuvenate tissues. PRP has been around since the 1970s. PRP is a truly remarkable and natural treatment that has many benefits for the skin & hair.

It also stimulates the growth of new collagen and improves blood supply, therefore helping your skin & hair to carry a more youthful appearance and glow.

The treatment requires about eight sittings, each two weeks apart for best results. Along with it, one may have to apply medication like minoxidil.

PLATELET-RICH PLASMA FOR FACE : AED 1500

PRP is a truly memorable and natural treatment with many benefits for the skin. During this treatment, your own concentrated platelets are injected into the skin with tiny painless needles, and this creates an improvement in the quality of the skin.

PRP TREATMENT FOR HAIR : AED 1500

PRP therapy for hair regrowth involves drawing out one's blood and centrifuging. It is then injected on the scalp or rubbed on the scalp after performing a derma roller treatment in the areas which suffer from hair loss.

GROWTH FACTORS : AED 2500

Growth Factors injectables to the hair.

A close-up photograph of a woman's face, focusing on her eyes and lips. She has a neutral expression. The skin appears slightly dry or textured. The text is overlaid on the image. The title 'Skin Boosters' is written in a white, cursive font with a red glow effect. Below it, there are two paragraphs of text in a white, sans-serif font. The background is a soft, warm-toned skin color.

Skin Boosters

Skin Boosters deliver long-lasting hydration to your skin at the cellular level, nourishing and replenishing it from the inside out. Injected into the deeper layers of the skin this hyaluronic elixir enhances elasticity, increases hydration, and encourages even more hyaluronic acid production.

If your skin looks dry, dull, or crinkly, if your lips are always chapped, no matter how much lip balm you use or how much water you drink, Skin Boosters can add hydration for months at a time

Messo Therapy

Mesotherapy is an aesthetic treatment that helps treat various body conditions like excessive weight, cellulite, skin pigmentation, hair loss, etc. During Mesotherapy treatment, different active substances are injected into the mesoderm (the layer of fat and tissue in the skin) via injections.
